

STEALTH FIBRES

TDS87 Rev2 23/05/24

DESCRIPTION

Westox Stealth Fibres are designed for the reinforcement of mortars and concrete. Westox Stealth fibres are made from polyester, which is completely stable in alkaline environments, Westox Stealth Fibres can be used in traditional lime mortars or modern cement based mortars and concrete.

USES

Used in Westox traditional plastering mortars in place of Cow hair that was originally used.

FEATURES

- ✓ Prevents crazing of render
- ✓ Colour fast
- ✓ Easily dispersed
- ✓ Cut to size and ready to use
- ✓ Compatible with most products
- ✓ No health hazards.

TECHNICAL DATA

Made from Polyester.
Length 19mm.
Non toxic.
Alkaline stable.

APPLICATION

Add Westox Stealth Fibres to the mix by loosely separating them and sprinkling them dry into the wet mix while mixing. The fibres should break up and evenly disperse throughout the mix. As a guide use 1kg (1 bag) of fibres for every 1m³ of mortar or concrete. The bag is fully dispersible and can be added to a concrete mixer.

PACKAGING

1kg Dispersible bags

SHELF LIFE

5 years.

SAFETY

Refer to Westgate Pty Ltd Safety Data Sheet (SDS) for instructions.
